Staff Celebration

We want to hear who is going above and beyond and deserves recognition for their work in supporting students. You can nominate Staff members for a Staff Celebration award at bucksstudentsunion.org/yourvoice/staffcelebration.

A previous Health and Social Care Professions Leadership nomination said the following:

"Stan is an inspiring and motivational teacher who drives his students to achieve the best in all he teaches. He is very resourceful and empowering to all who may be struggling and supports them in all they do."

National Student Survey 2022–2023 Feedback

What is the National Student Survey?

The National Student Survey is an anonymous opportunity for final year students to look back on their higher educational experience and feedback on different areas including the positives and areas of improvement surrounding their course for the University to use to improve students experiences in the future.

2022–2023 Results

BNU Celebrated an average of **84.6%** satisfaction across NSS categories.

Overall, Health and Social Care Professions School Satisfaction:

- With the University: **89.5%**
- With the Students' Union: **89.5%**

Common feedback occurrences to keep an eye on this year:

- Poor communication on timetable changes.
- Assignment briefs lack sufficient detail, causing confusion.

How does the NSS relate to you as a Student Representative?

We use the eight NSS categories as part of the 'Your Voice' feedback collection for Programme Committee Meetings, to make sure that key areas of your student experience are being fed back on appropriately.

Additionally, we want to know what we can do to improve our service as a Students' Union to support you. Feel free to email any suggestions to **surepresentation@bnu.ac.uk**.
